

# **Do It Back**

Copyright Nikki Holland Music

Gee you look nice, I know you took a little time  
And now you look so right  
Do I have to say goodbye?

It's been 1 great year I've been hanging around  
I'm sayin' ooh baby, babe I'm thinking of settling down  
Cuz when I hold you tight, you're the center of my world  
Won't you hold me back, baby, like your #1 girl

Ooh I do  
All these things that I do, you know I...Do them for you...  
Now ooh won't you  
Do it back, say it back, c'mon give some love to me, too!

**But you take me for granted when I'm on my knees  
Wont you look me in the eyes as I beg and plead  
Won't you do it, do it, come on, do it back to me  
Do it back, say it back, or give it back!**

It's been 3 good years, life is well on its way  
It's the little things I do for you, the little things I say  
Like when I whisper in your ear, ooh you really turn me on  
You're the reason why I dance, you've got me singing this song

Ooh I do  
All these things that I say, you know I... Say them to you...  
Now ooh won't you  
Do it back, say it back, c'mon give some love to me, too!

**But you take me for granted when I'm on my knees  
Wont you look me in the eyes as I beg and plead  
Won't you say it, say it, come on, say it back to me  
Do it back, say it back, or give it back!**

Ooh you do, you do; Ooh you say, you say  
Ooh you give, you give; Give it back to me, give it back, give it back to me today...

It's been 5 long years, I've been settling now  
I'm gonna show you what matters, Imma lay it all out  
Cuz I just give and give, and you just take like you do  
Now it's time I get mine, c'mon and give back to me, too!

Ooh I do  
All these things that I give, you know I... Give them to you...  
Now ooh won't you  
Do it back, say it back, or I'll take my heart back from you!

I don't wanna leave, I don't wanna go  
But you take, you take, and you don't let go  
Won't you do something, won't you say to save me  
Won't you give it back, give me back what I need  
What I need, what I need...

**But you take me for granted when I'm on my knees  
Wont you look me in the eyes as I beg and plead  
Won't you give it, give it, come on, give it back to me  
Do it back, say it back, or I'll take my heart back from you!**
